Trac-bzr. Download v 1.2.4.. Bug fix for OpenVZ upstart script to start on vz-init or upstart. stat,configdb,logrotate,msm-cache,nobinonly,pkg-lock..Q: Codeigniter upload_thread - Read CSV file and process lines I'm trying to upload a csv file via the Codeigniter Uploading from a CSV file feature. I want to show each line of the file as it's being uploaded and each time a line is uploaded, I want to execute a process. I've searched a bit and have found a simple CI example to upload a file, but it doesn't really accomplish what I'm looking for. Here's my current attempt: this is my test.php Controller: class testing extends CI_Controller{ public function __construct() { parent::__construct(); } public function index() { \$config = Array('upload_path' => 'uploads/', 'allowed_types' => 'csv,txt', 'overwrite' => true); \$this->load->library('upload', \$config); if(!\$this->upload->do_upload()) { \$data = array('error' => \$this->upload->display_errors()); \$this->load->view('upload_form', \$data); } else { \$data = \$this->upload->data(); \$data['file_name'] = \$this->upload->data('file_name'); 3e33713323
