to suspend all football games for three weeks. The decision was announced Friday after the league's weekly meetings in Birmingham, Ala. The college football season, the season for the three Thursday night games and for eight bowl games, was supposed to start Saturday. Now, they won't. The SEC says it's not aware of any fan or player injuries associated with the game suspensions. The only issue is that the health of players

The league says it's working to accommodate the suspension while also taking steps to address the issue of college players being drafted into the NFL. Meanwhile, bowl-eligible teams aren't scheduled to play Thursday night games if they lose the regular season. An example would be a West Virginia-Marshall game scheduled for Saturday that the Tigers lost. There are still four bowl games on Thursday of Week 13. And, we don't know for sure if the conference will allow these games to go on if they resume Sunday. It was reported in the Associated Press

that the league would allow for the games to be played Sunday. That's what the league did last year when it suspended all games during the period when the virus first surfaced. The College Football Playoff is still in effect. The semifinals have been set and the top two teams in the field will play Nov. 25 in Tampa, Fla. The third-place team will play Nov. 22 and the national champion will be crowned on Jan. 7 in New
