improved member of the Solaris Militia, has been added to the player roster. This elite legion of strikers will aid players in playing offensive style matches. Solaris Battalion The Solaris Battalion can be used in several different ways in game, with the most prominent being to help players gain a defensive advantage in an offensive style match. The Solaris Battalion can also be used to dominate an opponent in a counter-attack and there is also the possibility to use it as an offensive weapon in some situations. Additionally, if the Solaris Battalion scores a goal during a counter-attack or the winning team scores a last-minute goal, they will spawn a Solaris Hammer to help push the attack. A number of players in the Solaris Battalion can change play styles based on their distance to opponents. This allows the player to adjust their play style as needed to become more effective.

Maiden of Mars The Maiden of Mars is returning to this year's game roster. The player can now choose between the player's own name and the player's chosen Scout or Traitor codename, depending on their preferred Scout or Traitor faction. If the player chooses a Scout codename when choosing a faction, the Scout codename will be displayed on the player's nameplate and in the matchday guide. If a player chooses a Traitor codename, the Traitor codename will be displayed on the player's nameplate and in the matchday guide.

## **What's new in Fifa 22:**

- **Welcome back:**
  - **In addition to the existing player presentation, contract negotiations, transfer politics and overall management, your club owner is back with a vengeance. Evaluate the resources your club can get and the temptation to cut corners as you search for new markets. Then, use The Team you create to compete. But the business of football is only part of your story. By harnessing the power of the “sum of the parts,” you can create the total package of Ultimate Team and be the ultimate player.**
  - **And those goals...**

**The single-player story is back with more chases, sprints and dives, pulling back to see you score. Whether you’re a goalkeeper or a striker, you’ll receive individual player feedback if you’re aiming at players instead of the target, a breakthrough for more intelligent assists, and another quest to help your teammates settle in the right position. Am I the only one that saw the goalkeeper tackling the striker and ran all the way to my defense line instead of sprinting?**
  - **The length of attack drills is back and shows the exact distance to the ball before you press.**
- **Player Editor**
  - **New save states and saves for off-the-ball defending define each save. Use the new Defending Quick Decision and new AI Lateral Trajectories to make crucial choices. Even more commands for the player model allow you to sculpt muscle and skin, exposing greater individual expressions. It’s now easier to create customized player looks with more customization options for your creation.**
  - **The In-Game Scenario Editor lets you take your**
