Features Key:

- New hyper-realistic match engine: Now you can enjoy twice the action when playing

-
- online with your friends. Whether you are the defense master, dribbler or striker, this is your chance to show it in front of the world and this is your chance to play with all players, **decisions and tactics** within the game. Just like we have seen in the first person view and the new camera system that encompasses more of the whole pitch.
- New addictive cards : Now you can choose your favourite cards and add them to your personal collection. Each card has a different ability and that is closely linked to your position. And you can also collect cards during your match.
 - An early explosion of a new and improved 'Career' mode: This is a career mode for everyone who wants to become a player. Live your dreams even if you are only 12, even if you only play with one player and even if you are a defender. Each game can be spent on a newly designed contract with a promotion option or a new contract that needs to be won in your current team.

More details on FIFA 22:

- Further goal celebrations: The most popular celebrations have been improved. We have created an exact timing that is new for FIFA. You can lower the blade, demonstrate the famous flip or showcase your skills on the pitch.
- Brand new animations: All kinds of players, including goalkeepers, have more animations and best performances of them are improved with the help of a new controller with the WASD architecture and a new 2X2 controller system for the first time. This allows developers in FIFA to have a better control of the game.
- Also new animation set: Players are now able to explode more on the field. This also includes the ball.
- ~~Smile if you want to play defensive midfielder, for example, you can then leave your position and test yourself from promising dribbling techniques: This has been improved with the help of new crossing times. And the trigger to leave the pitch is longer.~~
