“Joggernauts is a multiplayer action racing game for the PC, Xbox One and Playstation 4 developed by Grindstone and published by Splitfish. It’s a racer-platformer mashup where you’ll battle against your friends or go solo to battle evil robots.” Joggernauts is a huge new dimension in competitive video gaming. Our objective is to bring exciting and unique competition to all platforms using original IP developed by Grindstone. Joggernauts features extremely fast-paced gameplay, great replay value and fun online/offline modes where players can use their in-game powers to battle bots in races, collect weapons and unlock the power of legendary weapons. Players can switch their character’s weapons at will, and immediately see the effects their battle choices have on their playing field. The selection of weapons is huge, and when combined with the effects of your character’s powers, new tactics can be used in the battle against each other. Our game features various power ups, game modes, replayable items and weapons, customisation options, and of course, tons of robot battles. Robots (aka “bots”) are extra game characters that can be used in the same manner as the player, except for two key differences: their powers can be upgraded, and they must continually be upgraded throughout the course of the game. We’ve also added some fun twists that will keep the whole game interesting – like “colorful” and “slime” bots. For more info, visit or contact us at sales@splitfish.com. Joggernauts for sale from Amazon.com Available in the USA, and in Europe through Amazon’s.com (Joggernauts is a registered trademark of Splitfish Digital Media, Inc. - Play new features live in Early Access - Streamed gameplay - Streamed game design - Expected release date in February 2013 - Most of the content in Beach Buggy Racing 2: Island Adventure is complete; however, there are some lingering bugs that we are working to iron out.- The most important part of a game is having fun. Many people have told us that they would still enjoy the game regardless of their experience. However, we do not plan to add more content to the game until it reaches Beta. In fact, it's highly likely that we will reduce the number of playable content and features that are included at Beta.- Make game replayable with unique track designs and paintable, re-paintable, and customisable buggy vehicles.- Update the overall game balance by playing the game and giving us feedback.- Continue to add new features and add new content like vehicles, physics, improvements to the engine, etc.- Expand the game's possible player movement options- Revise the game's UI and feedback elements Thank you, Thank you for participating in Beach Buggy Racing 2: Island Adventure! In fact, we're very happy that you have enjoyed Beach Buggy Racing 2: Island Adventure as much as we have! We will continue to make Beach Buggy Racing 2: Island Adventure for as long as people want to play it, but we do not intend to add more content to it once the game is released. We want to spend the time to make sure the game is fun. While we will make improvements, we're only making them after we've completed other features that are just as important (if not more important). Note that Beach Buggy Racing 2: Island Adventure will be a paid, full-price game when it is released. Thanks! Thanks for participating in Beach Buggy Racing 2: Island Adventure! It's been a blast to make! Hi, can you please explain to us why the beta is unfinished (it would be a bit unfair if people spent so much time and they get nothing), so can we expect something playable even at the end of the beta? I think it would also be nice if you could add some details for example on whether you plan to add a single player mode? Also regarding the question of adding new content or not, it would be cool to see a playable version of vehicles, and maybe some sound effects and such, so that we can see if what we expect to be in the final product is

Description Load it up with bullets; pitch your hand cannon to the enemy; put a round through a Kaiser's head; then face off against a Scout plane. Cover armies across the map and get the heads up on the full brunt of carnage, intrigue and carnage in this massive epic conflict. The House of Guns calls all weapons into play, but nothing is more dangerous than the gallant hussars. Featuring WWI history to serious conflagrations, The House of Guns is an adventurous and action-packed epic conflict designed to envelop players in the most epic war in recent history. Draw weapons, equip military might and lose yourself in the most expansive and combative card game you've never played before. Every action and every game comprises the war. In each card scenario, a German player and a French player start with cardboard miniatures of 7 different Royal Army units, from the Kaiser's royalty to the lowly gendarmerie. 5 of the miniatures represent Declassé Buller's French army and 2 are

Declassé Hugo's German army. Place your artillery pieces on the table in the heart of the battlefield. Establish your own strategy and become the last hussar standing in this epic conflict.
