How do you define your choices? Do they define your destiny? SWAM, short for "Sector 32: Waste Area to Mars", is a decision-based mystery game with a sci-fi setting. Play as a downtrodden rookie in the guard forces, looking to make a name for yourself. You jump into your spaceship and start the descent into the increasingly hostile and dark outer edges of the giant nebula at nearby sector 32. Stay alert, as you can make the difference between life and death. SWAM is based on real sci-fi sources. As you progress, you'll discover plenty of hidden secrets in this vast universe, as you make your choices. All this can also be done on a smaller scale at the start, if you choose. Take care of your ship and protect your equipment. The damage to your ship or a single missile might come back to haunt you later. Secrets and multiple endings Find countless secrets in the field, uncover the hidden messages from those who got lost before you - but be careful, you can't trust everything you see. Take care of your ship and preserve your equipment. Damage to your ship or a single wasted missile might come back to haunt you later. SWAM is split into four main sections. Each of these contains a different kind of protagonist, each with his/her own set of relevant skills, weapons and abilities. You start each section with an empty ship, weapon at hand. The first 3 segments are story-driven with a lot of reading the world's messages, so they may take a while to complete. What do you do? Make your choices wisely, but also pay attention to your surroundings. Follow your veteran comrades may get you the end they want - but it may also leave those they don't care about out there to die. There is no replayability in the normal gameplay, but you can always modify the beginning of the game with the start options on the story parts, which then allow you to make the same choices at the start you did earlier. Comments and Ratings for Twisted Twins Reviews Rated 5.0/5 based on 2 reviews Yes 2 months ago Soul at Stake, Heavenly Beat Tried my best. I had to make 2 characters with completely different personalities and levels. I don't even know why there is no option of that anywhere, but I got it to work. Had 2 Stakes instead of 1, so I had to upgrade to a better character to get additional Stakes, c9d1549cdd

In End Space you play as Private Data Corp Contractor. You have been tasked with the task of saving the UTCs technology from the worst terror organisation they've ever encountered. The LTF is trying to lay claim to the jump-drive technology that the UTCs have been keeping secret for years and all it takes to stop them is some good old fashion ground poundin'. Jump, blast and shoot your way through 10 intense levels as you progress through the ranks. Find enemies, take their points and upgrade your weapons to be the best on the market. Manoeuvre around the environments in your unique VTOL starfighter, blast enemy spacecraft and turrets and use a HUD to see and hear your enemies, where they are and what they are doing. It's up to you to protect the jump-drive! Player Reviews of End Space: "You can now pilot an advanced VTOL starfighter. That's your main hook and that hook goes like this: The planets of End Space are one big, sweaty, gory FPS level." /5 Pocket Tactics "End Space is the kind of VR shooter that might have reached the peak of its potential 10 years ago, but is still a damn fine one now." /5 PC Gamer "End Space is the best space shooter you've probably never played." /5 VR Game Mag "End Space is a well-crafted slice of VR FPS fun. I wouldn't go so far as to say it's the best space-based VR shooter on the market right now, but I'm happy to award it a stand-out status of my own." /5 VRGames.com "End Space is the best VR FPS title on the market right now, as it turns you into a space captain piloting a combat vehicle and destroying other enemy craft from on-foot and in the air." /5 IGN End Space is the VR space shooter that our loyal readers have been waiting for since the dawn of VR. But this is so much more than your typical VR FPS, you really can control your craft with a mix of teleportation and turning. We've had a go ourselves and it's the smoothest VR shooter we've played yet. - VRFocus End Space is the best VR FPS experience I've played to date and I cannot recommend this enough to VR FPS fans. The controls, the art style and the

reports on the global developments with the predatory loan in a couple of posts. Nearly 18 percent of Brazil's exports at risk and 541 municipalities insolvent as country sinks into recession - TIME The month started with Alcione Suarez struggling and the villa packed, people ending up sleeping in plastic tents in the swimming pool. Crisis loomed, now the mountain is in full cry. Alcione Suarez is former banker at the Agra Bank of Brazil (Banco Rio), now a retired manager of the bank's operations in Rio de Janeiro. She testifies in a legal battle that has now swollen into a series of practices that "destabilized" the financial system. In the last week of March 2008, Alcione received an email from a London-based lawyer representing the middle of a London court. They informed that the lawyer's client (a British client) was attempting to recover their funds in a London court. The message was bad news - the funds were lost in Brazil. Alcione was informed that the middle lawyer requested information from the bank on where the client had kept the money. The Agra Bank had the information in file - something that news of the account is written in a document for any client. Next, the message informed that the client had filed a legal action to recover the funds. Alcione then began to wonder - who was the client? Brazil needs to find 88 billion dollars to pay the World Cup this year. (AP Photo/Andre Penner). Alcione Suarez image of her, manager of the R\$, billion bank. Image of the middle of Rio de Janeiro in a city now in crisis, with millions of dollars running down. 644 mayor of Rio de Janeiro are now either in Brazil or in jail, some for embezzlement, but the majority for corruption. The Agra Bank's bank account. The West London court has jurisdiction over the case since it was filed there. Alcione began to get rattled. It was a dangerous move to the bank, would have serious consequences, and really shook the bank. As Alcione began to ask questions she was informed that the client had already won the case and was already in receipt of the funds. Undeterred, Alcione requested that the Brits lawyer notify her that this was not the case. She was surprised, since she was the boss and the money was in a file
