What's new:

The Land Of Lamia (, Lamya tis Kalymnis) is a highly fictional book by the legendary poet Lord Byron, originally printed in 1810 after being adapted in Greek and in order to replace the three composition by Gennadios Scholarios. Manolis Markopoulos says that Lord Byron is to be seen in the story, creating a sort of "eidolon", leaving not very visible traces. In the same way Miltiadis Paliokoudas identifies lord Byron from where he writes "Polemos, I am homeland, my egg is Lord Byron, full of might, fire and passion". Lord Byron's poem written in 1810 was not only meant to be read, but also spoken. It can be stated that up till now no one succeeded to sing it. A notable exception was the Russian composer and writer Alexander Serov, who recorded in 1872 a modification of the poem by Byron in a multi-part choral work called The Land Of Lamia. Other notable, late music interpreters are composer Alexandru Dunca and Russian director and choreographer Mela Nikolova, who performed her opera The Land Of Lamia in 1973. Background Lord Byron, born in 1788 in Lisbon, is considered as one of the greatest Romantic poets of all time. In the history of the English literature, he is a poet who has left behind no excellent work. Of the novels and dramas, only a handful are remarkable: Cain, Manfred and such. Most of all he was a well known civil and political adversary of the Austrian Emperor. Because of his opposition to the Revolution in Greece in 1821, he was exiled from his country. Due to his residence abroad, became the name of a major character in the European adventure film genre of the early 21st century, covering travel in exotic locales. The motivations for Byron's travel within Europe and the Middle East are deeply embedded in his own explicit statements regarding his perception of Europe's political and cultural situation. His travels which took him through most European countries had a strongly transformative character. For instance, in a letter written to the poet Percy Bysshe Shelley in the summer of 1816, Byron says the following: As for Europe's affairs, the statesmen of Europe are, just like myself, despairing of anything good for us coming out of the present storm of hatred; but anarchy is kinder to the weak; it destroys quickly. For my part
