To apply this algorithm is to open the solution file that you downloaded from the Shiraz University website. Since there is a common name of all the solutions and you can easily recognize the name when you open the file. Remove the extracted zip file and place the solution file and then keep it, close the File Explorer or Explorer with the Right-click on the icon. How to open your solution file in this case, we should convert the zip file into an archive and then save it as a local solution file. How to convert zip file in Please follow the steps, below: In order to convert zip file into an archive you need a third party software such as WinZip or similar software. 4.1.1 Open the extracting zipped file in the software (In our case â€œshiraz-w2.zipâ€œ) and extract the folder named â€œdownloadâ€œ into a particular folder in the drive. 4.1.2 Open the solution file that is your original file you download using the software and then save it as an archive file. If the solution file is not stored as an archive, please convert the zip file into an archive file. 4.1.3 Close the extracting zipped file in the software. Then remove the original zip file and place the solution file and then keep it and close the file Explorer or Explorer with the Right-click on the icon. 5.1.1 Open the solution file that is your original file that you download using the software and then save it as an archive file. If the solution file is not stored as an archive, please convert the zip file into an archive file. 5.1.2 Close the solution file that you saved an archive file. Then remove the original zip file and place the solution file and then keep it and close the file Explorer or Explorer with the Right-click on the icon.
