Worms 2 PcÃ .Q: counting maximum using two loops I'm trying to make
a simple program that counts up from 10 to 1 using two loops, a while
loop and a for loop, and I can't figure out how to get it to add up to 10,
10+10, 10+20, 10+30 etc. This is my code: int y =10; for (y=10; yQ:
Entity Framework connection string in web.config When I am making a
web api application, EF is not looking for the connection string in
web.config. Actually I have not any website to look at. I do not want my
local database as a database server. What should I do to get the
connection string in web.config. Actually my data access is working
correctly. I
