Habitatsoft Gestin Inmobil Full VersionQ: How to create user in my application In my application there is one requirement of creating the user or creating the account for the first time. How can i create a new user in my application. What is the different between creating a user using UI layer and using my application layer? Thanks, A: It's very simple. Create a new Dataset at runtime at the required configuraton that is needed. For authentication create a custom login page. For data table or gridview selection, you can add a gridview and customize it with your custom data table datasource. Here set datasouce and datasource. After that you can customize the login page with your custom logic. Finally return the values and handle it. For more implementation details please refer this link. I have posted the code to implement database design of user login and creating user. using System; using System.Collections.Generic; using System.Linq; using System.Web; using System.Web.UI; using System.Web.UI.WebControls; using System.Data; using System.Data.SqlClient; using System.Configuration; public partial class _Default : System.Web.UI.Page { private Label lblUserName; protected void Page_Load(object sender, EventArgs e) { lblUserName = (Label)Master.FindControl("lblUserName"); if (Page.IsPostBack) { BindData(); } } protected void BindData() { SqlConnection sqlConnection = new SqlConnection(); sqlConnection.ConnectionString =ConfigurationManager.ConnectionStrings["DbConnection"].ConnectionString; sqlConnection.Open(); string username = ""; string password = ""; S
