Mercury Outboard Motor Year By Serial Number NEW!

**Download**

---

The serial number allows you to find the correct parts for your outboard motor, depending on the year of manufacture and horsepower. For example, Mercury produced more than 120 US-made Mariner engines with identical Mercury and . It is not possible to find the model year of engines with a significantly higher or lower serial number. For example, Mercury Mariner 14176900 will have the same displacement and horsepower as Mercury Mariner 14168300. Note that the serial number does not indicate the type of engine. For example, serial number 14175200 means it is a Mercury Mariner with a Mercury R5M propeller.
