in your camara, you can take a picture of the banner, and use the built-in exif editor to record info like the height and width of the shot. if you are your own photographer, you can use the exif editor to add your own informations, like a title, a location and a date. the feature i like the most is, when you install or uninstall a program, you can make it so that the programs icons or applications will also appear on the system tray (the little thing on the left side of the top panel). this is awesome. it allows you to make it easier to operate your pc. note: windows defender antivirus prevents the uninstall of some repair programs or the creation of restore points. if you can't uninstall the repair or save your restore point, or if it fails to download the boot image, then you should contact the help desk of the

antivirus vendor. microsoft has decided to release a new version of windows on october 2nd. the new version of windows 10 is expected to be available for download from the microsoft store. this update of windows is a major release for microsoft and will bring many improvements to the operating system. the new operating system will allow you to upgrade to windows 7 from windows xp by installing the windows 7 evaluation version. if you are looking for a program that can repair your windows installation, repair your boot sector, recover deleted files from your hard drive, or restore your settings, the best program you can use is the windows repair disk. only download the program for your system, which is proven to be better than any other.
