its very similar to the paper mario: color splash game and its controls are very easy to use. the graphics are charming and colorful, and the music is very catchy. you can even use two other characters, peach and bowser. the game is very fun and easy to play, and is a good game for any paper mario fan. paperino operazione papero [pc game] - quack attack is a game where donald duck has to prevent the villain from destroying the world with his new airship. this is a game that can be enjoyed by anyone who is interested in old-school gaming, regardless of their age or skill level. although not perfect, the game is fun and charming in its own right and it should be considered a classic of the 8-bit generation. this is a fun game, one that i would love to see updated to be compatible with the most modern systems. the original includes a review of the game on its official website and was one of the few n64 games to be reviewed by ign. the wii version is a decent port, but the controls are very awkward, and a complete loss of the controls that made the game boy original so fun. disney's donald duck - quack attack (europe) (en,fr,de,it) rom download is available to play for wii. this game is the us english version at emulorgames.net exclusively. download disney's donald duck - quack attack (europe) (en,fr,de,it) rom and use it with an emulator. play online wii game on desktop pc, mobile, and tablets in maximum quality. if you enjoy this free rom on emulator games then you will also like similar titles disney's tarzan and disney's hercules [slus-00529].
