## Tara 8yo And Clown 175

mike calls the dispatcher to report that a naked girl has been found in the loft's boiler room. when he arrives at the loft, he finds tara lying on the floor, and tries to calm her down. he asks where the other children are, and she says that she left them alone in the loft. the trio of tara, dawn, and art have just had dinner at a local restaurant. they run into an elderly blind woman named edna, who mistakes tara for a ghost and begins to scream, her vision of ghosts and spirits causing her to believe she's seeing one. as dawn and art comfort edna, tara uses the distraction to steal one of art's cigarettes and blow a huge hole into his stomach. dawn then uses the distraction to grab the hat of a patron (who attacks her moments later with a knife), and throws it at art, landing in his stomach. they all leave the restaurant, but are soon interrupted by a group of police officers (who mistook edna for a burglar before tara and dawn explained that she's elderly and hallucinating). art runs off from the authorities, and the group of survivors head to the local hospital, where the funeral home owner, joel, shows them to the morgue. art is smothered with gauze until they're able to remove his belongings, and his body is subsequently put on a gurney and taken to the morgue, where it's prepared for burial. tara and dawn then take edna to see if she can receive medical assistance. vicky is admitted to hospital after the above events, after being severely injured during the ordeal. art pleads with the hospital administrators that he be allowed to help vicky, however no requests are granted. art eventually gets into the room with her using a gun to force entry, before he throws her into a wheelchair and ties her up with gauze. art then takes a metal cage from the room and locks vicky inside, before injecting her with drugs and sending her some whiskey.

but when they wake up they find they were just having a bad nightmare and tara finds herself in the same position in which she found herself at the beginning of the film! tara asks about dawn, but dawn's head has been replaced by a halloween pumpkin. dawn agrees to show tara around the school and the landscape is revealed to be the town of coonham. they arrive at a nearby house, where art has sent tara and dawn to, who had somehow managed to escape from their cages. tara has dawn drive slowly,

so as to not arouse suspicion. inside the house, tara attempts to call mike for help, but it appears he has left town and she has to do it herself. tara notices the skulls, and other obvious signs of clown-crafting, but is unaware of the stash of clown masks in the basement. she also discovers art's secret room. suddenly, art bursts into the room wielding a chainsaw, which he proceeds to use to hack at tara's torso. tara holds him off, but eventually loses her grip on the chainsaw and is nearly decapitated. tara manages to get her hands around art's neck, and drags him into the living room where dawn is

sitting alone. as the two start fighting, dawn attempts to get help from the door, but she is shot in the head by art, who then proceeds to drag dawn's head into the room by her hair. tara is repeatedly stabbed in the legs and stomach by art, who continues his depraved assault upon her. eventually, tara's wounds become too severe to cope with, and she collapses to the floor. while she is on the ground, art strangles tara to death. tara's body is then decapitated by art, who proceeds to cram her head into the clown mask dawn had been wearing. art then pins dawn's severed head to the wall, declaring "you're mine now!"
