CRACK Photodex ProShow Producer 9.0.3776 patch - Crackingpatching.php.txt. 226 KB.Q: How to get the number of wall posts added on a wall with Facebook sdk 4.6.0 in Swift? I'm trying to get the number of wall posts added by the current logged in user on his wall. I followed the tutorial, but I can't get the number of wall posts added by the current user. I'm using Facebook SDK 4.6.0. Now I have the following code: let fb = FBSDKLoginManager() let loginHandler = FBSDKLoginManagerLoginResultHandler { (result: FBSDKLoginManagerLoginResult!, error: NSError!) -> Void in if error != nil { println(error) return } var graphObject : FBSDKGraphObject if let userID = result.userID { println(userID) //the next lines of code are not necessary for the answer graphObject = FBSDKGraphRequest(graphPath: "me/feed", parameters: ["fields": "message,created_time"]).startWithCompletionHandler({(connection, result, error) -> Void in if error == nil { var posts = [NSMutableArray]() do { let allFeed = try FBSDKInternalUtility.jsonDecode(result.result as! NSDictionary)["data"] as! NSArray
