

CubeCart is a robust and easy to use eCommerce solution that helps users and retailers from all over the world to set up and manage their eCommerce store. The program allows the users to add the products, customers, orders, currencies, countries and taxes in just a few clicks. The program also offers a neat template system and a intuitive customer registration form that can easily be customized. You can easily edit the template text and the layout of the page, making it one of the most popular templates available. This program also offers an easy to use and powerful eCommerce features for processing orders, shipping and invoicing. In addition to that, it supports several payment processors, a tax calculator and an easy to use and customize shipping feature. Store Manager Features: • Strong support for multiple currencies • Customer registration feature • 2 delivery options • Shipping module • Taxation • Order management • Multi currency • Customers 3.1 4 152 3 8,772 If you've previously purchased any products on our site, we'll be glad to work with you to make sure your order is complete. Simply log into your account, then check the order status under Orders. If your order is in its final processing stages, it will say "Processing" on the order status page, or it will have an estimated delivery date. PRICE MATCH We welcome our customers to ask for a price match. If you have found an item at a better price elsewhere and we don't already have the item in stock, we will match that price. REVIEWS We at Open Source Inventory pride ourselves on our community of reviewers. We listen to what our customers have to say and are constantly working on improving our service, so we can be the best. OTHER PRODUCTS You can check other great products from our portfolio by clicking the links on our main page. Faros is a developer of enterprise-ready tools and workflow solutions for the global information security market. Faros products are deployed by the world's leading organizations to help them meet their compliance, detection, response and investigation requirements. Separating the ways to get free domain names. Faros gives you a free domain name If you wish to have your own website, but have no idea how to go about it and don't have a full-time IT staff, Faros is the one of
